Address and Presentation—School Inspector's Report—Local and Personal Items.

On Friday evening last, a number of the members and adherents of the Presbyterian church, met at the residence of Mr. Arch-McDonald, for the purpose of presenting an address and beautiful travelling case to Miss Emily Johnston, as a slight token of appreciation of her valuable services as organist. Mr. McDonald read the address, which is as follows:

To Miss Emily Johnston:
Dear Friend—We, the members and adherents of St. Andrew's Presbyterian church, Fort Qu'Appelle, have assembled this evening to express our very high appreciation of your services to our church work. Your occupation is of such a kind that you cannot engage in any other work without considerable sacrifice. As your object is to help on the cause of Christ, you cheerfully undertook to act as organist. You have for over a year performed that important work, not only in church service but in Sabbath school and prayer meeting. We feel that we are very grateful to you for your self-sacrificing efforts, which have been much appreciated by the congregation. We have much pleasure in asking you to accept this little travelling case, not as a remuneration, but as a very slight token of our esteem for your valuable services. Our prayer is that you may be long spared to work in the Master's vineyard, and that the choicest blessings of our Heavenly Father may abide with you. Signed, on behalf of the congregation, ARCH. McDONALD, Chairman.

R. S. SMITH,
JOSEPH ZIMMERMAN,
D. A. MCKENZIE.

The Inspector's Report to the Trustees of the school, Sept. 13, 14, has been received, and as will be seen is very satisfactory.

Schoolhouse—In good repair and generally satisfactory. Grounds satisfactory. Equipment—Six maps, one globe, about 30 vols. reference books and a library of about 70 vols. general reading. I am very glad, indeed, to see a library. It is very possible to estimate the great value of a library in connection with the school; it promotes habits of reading and study and affords the pupils an opportunity of extending their knowledge beyond the limits of the school programme. Pupils—The classification in both departments is satisfactory; order, good; a attitude towards work, good. Standing in subjects examined—Senior department, stands well; junior department, fair; attendance, generally good. Teacher, senior department, Robert Williams, first class certificate; A good teacher, earnest in his work, intelligent in his methods; he is interested in the work of his pupils and the progress of the school; has secured the confidence of his pupils, and his work generally is very satisfactory. Pupils, 40 on register, 30 in actual attendance. The teacher has provided, with the assistance of the pupils, a number of local geological specimens and a small natural history collection. I would suggest that the trustees provide a cupboard for things at present kept on the platform; the maps should be provided with rollers. Junior department—Miss Reeve, third class certificate; She has not had much experience in teaching, and I can only class this department as fair. Pupils, 37 on register, 27 in actual attendance. General standing of school, senior department, stands well; junior department, fair. Secretary's books examined at inspection and found satisfactory.

Rev. D. A. McKenzie, B.A., who has had charge of St. Andrew's mission during the summer, left on Monday for Kingston. Mr. McKenzie is an able preacher and organizer and was a general favorite with the townspeople. The congregations at the Fort and Springbrook have increased at least 50 per cent during the time he has had charge and much regret is expressed at his departure. We wish him every success in his future ministerial career. The Rev. Mr. MacAfee, B.A., of Manitoba College, will take charge of this field, and from the reputation he bore at Keewatin last year, we have no doubt his appointment will prove acceptable to all connected with the mission.

The Ladies' Aid society have thoroughly renovated the St. Andrew's church and manse and are deserving of the greatest praise for their noble work.

"It Fell From the Nest."

The above is the title of the premium picture given to subscribers of the "Family Herald and Weekly Star" this year. The publishers are offering a \$50.00 in prize to anyone who can describe the picture from the title. Here is a chance for our readers. The picture "It Fell From the Nest," the "Family Herald and Weekly Star" and the Qu'Appelle Progress, one year each, all for \$1.75.

Those Worrying Piles.

One appearance of Dr. Agnew's Ointment will give you comfort. Applied every night for three to six nights, and a cure is effected in the most stubborn cases of Hemorrhoids or Itching Piles. Dr. Agnew's Ointment cures eczema and all itching and burning skin diseases. It acts like magic. 35 cents.

Dr. Agnew's Liver Pills for weak heads and liver ailments. 25 cents a box.

HARVEST HURRY.

Take the golden sheaves, boys,
With your might and main;
Who'll have of their load first
And reach the field again?
Light heart is made the work light;
So through your work let run
Ripples of contentment
And little streams of fun.

If you scowl and grumble,
As you load each load,
Large will look the shocks, boys,
Long will seem the road.
But your grin, strong muscles,
Helped by a smiling face,
Seems with half the trouble,
To coax the sheaves to place.

Then be bright and cheery,
However dark the day;
That will make your work, boys,
Seem almost half play.
Toss the scented sheaves, then,
With your might and main,
Who'll have of their load first
And reach the field again?

—Fairy Dot.

Bargains for Newspaper Readers.

We present to the readers of the Qu'Appelle Progress an opportunity to secure that great world's paper, The Family Herald and Weekly Star, of Montreal, with its superb premium picture, at a considerable reduction. We do this to enable our own subscribers to save considerable money. The Family Herald and Weekly Star needs no description. It is known throughout the world. It circulates widely in every township of Canada and throughout the United States, Great Britain and Australia. The Family Herald and Weekly Star is enormous value for the small subscription price of one dollar. The Family Herald is not in competition with the Progress but goes with it as the great universal paper, making with the Progress the best value before the reading public of this continent. There goes with the Family Herald this autumn to all yearly subscribers when their remittances are received a beautiful premium picture, entitled "It Fell From the Nest," pronounced by all the known judges as a magnificent premium, a picture that tells a touching story. It is sent to the publishers of The Progress \$1.75 and you will receive the Family Herald and Weekly Star, of Montreal, and this paper.

This offer is limited as to time, and cannot be, together with the premium, accepted after the offer is withdrawn.

Address:

Publisher,
QU'APPELLE PROGRESS.

A THUMPING HEART

Is Only One Sensation in Heart Disease—Maybe it's Yours—Dr. Agnew's Cure for the Heart Never Fails to Give Relief Inside of 30 Minutes.

"I am glad I used Dr. Agnew's Cure for the Heart. The remedy is a wonder-worker. My case was chronic, having had much uneasiness about the heart, with palpitation more or less severe since I was a boy. I had abnormal action, thumping, fluttering and choking sensations. I tried many remedies, but with no benefit. After using five bottles all the distressing symptoms left me." Rev. L. W. Showers, Elderton, Pa. Sold by Henderson & Parker.

Fell From an Elevator.

On Saturday last, about 11 o'clock, Stewart Langille, a workman employed on the new elevator, fell from the scaffolding into one of the bins, a distance of about twenty feet. He was carried to the Leland hotel and in a little while summoned. It was found on examination that no bones were broken, but he had received a serious blow on the side of the head and that one shoulder was badly bruised. It was thought best to forward him to the general hospital, Winnipeg, where he arrived all right on Sunday night, accompanied by the foreman, who reports that he is doing nicely, and well as can be expected, though suffering from concussion. It is not known exactly how the accident occurred, as no one was near him at the time he fell, but it is supposed that he became giddy, as the sun was exceedingly warm. Latest accounts say he is much the same, though hopes are held of his recovery.

An Inhuman Father.

Regina, Assa, Sept. 23.—A warrant was issued this afternoon for the arrest of Ludrick Kasal, living between Regina and Balgonie, for the murder of his illegitimate child by strangulation. The child was a month old.

This Kasal is a brother to Sigmond Kasal, who a few weeks ago, was sentenced to three months imprisonment for stealing lumber from an owner's house. The Kasals are very well-to-do farmers with a good balance at their bankers and much sympathy is expressed for the aged father. They have always been considered very respectable people and good citizens.

Horrible.

A dreadful accident happened near Weyburn on Monday. About noon a German had aged about ten went to the house of Mr. Frank Jordan and while looking with a gun discharged it, with the fatal result of tearing a hole right through the body of one of Mr. Jordan's little ones and lodging the shot in the lungs of another. The first died almost immediately, the second is badly hurt but it is hoped he will recover. They were aged about 6 and 4.

Springbrook Sightings.

(From our own correspondent.)

On Sunday last one of the largest congregations ever assembled in Springbrook was present to hear Mr. McKenzie preach a farewell and harvest home sermon in the schoolhouse. Many were the regrets expressed on bidding farewell to Mr. McKenzie, who, by his noble works and pleasant manners, has endeared himself to all the people.

Farmers are hauling their wheat out to market over the new road, which is much shorter than the old way.

A meeting of the literary and debating society will be held in the schoolhouse on Friday evening.

(Received too late for last issue.)

We regret to state that Mr. Isabelle has had the misfortune to have his stables burnt and also about eighteen tons of hay. It appears that a fire was started to burn the old straw around the stable, and after it being burnt it was thought the fire was out, but a strong wind sprang up and blew some of the still burning fire brands into the stable with the above results.

Threshing commenced last Monday on the farm of Mr. P. McNaughton. The yield this year is not so large according to the straw as it was last year, although some of the summerfallow is going over forty bushels per acre.

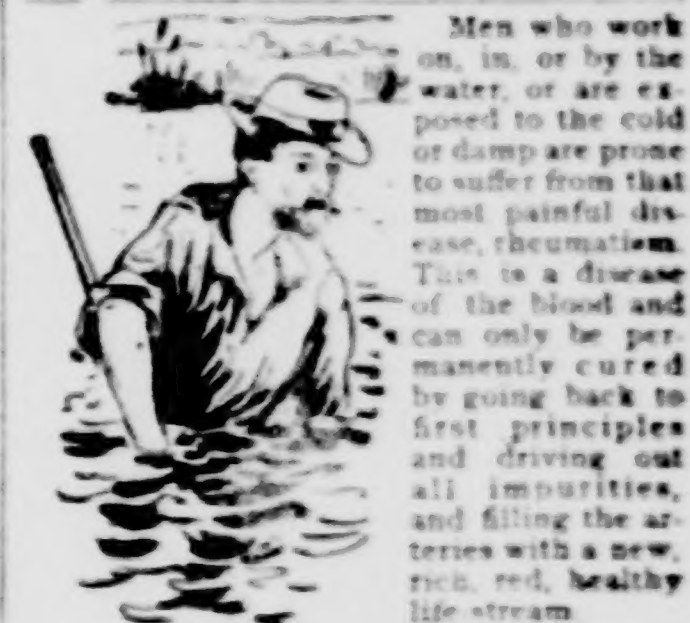

The C.P.R. are disposing of their land in this district at a great rate. During this last year the sale has been so great that nearly all the vacant land has been bought.

We are pleased to say that Mr. A. Donaldson has given up the reign of bachelorhood, the partner of his joys being Miss Alice Watkins, of the Fort. We wish them joy.

Dr. Bourns, who was visiting his brothers, returned home last week after a stay of about a fortnight.

Wolves are very plentiful and destructive this fall.

—The Chicago parties who came in on Monday had purchased a large part of their outfit in Chicago and lost a good deal of money by doing so. They paid \$8.50 the \$ and \$5 per cent duty, equal to almost \$3 or \$11.50 in all, for blankets which they could have purchased here for \$6.50. All woolen goods are much dearer there than here and the duty has to be paid besides. —Edmonton Bulletin.

Men who work on, in, or by the water, or are exposed to the cold or damp are prone to suffer from that most painful disease, rheumatism. This is a disease of the blood and can only be permanently cured by going back to first principles and driving out all impurities, and filling the arteries with a new, rich, red, healthy life stream.

This is the reason why Dr. Pierce's Golden Medical Discovery is an all-round cure for that disease. It is the greatest of all blood medicines. It creates a keen and hearty appetite. It cures all disorders of the digestion and makes the assimilation of the life-giving elements of the food perfect. It invigorates the liver and tones the nerves. It is the greatest of all known blood-purifiers and blood-purifiers. It builds firm healthy flesh, but does not make corpulent people more corpulent. Unlike cod liver oil, it does not make flabby flesh, but tears down the unhealthy tissues that constitute corpulence, carries off and excretes them, and replaces them with the solid muscular tissues of health. It drives all impurities, disease germs and acids from the blood. In Dr. Pierce's Common Sense Medical Adviser many sufferers from rheumatism, whose cases were considered hopeless, tell the story of their recovery under this wonderful medicine. Their names, addresses and photographs are given by their own request, and anyone who wishes to do so may write them. Good druggists sell the "Golden Medical Discovery."

When a dealer urges some substitute, he's thinking of the larger profit he'll make out of your welfare.

I suffered from rheumatism in my left shoulder and elbow, writes Rev. William Williams of Trinity Station, Morgan Co., Ala. "Dr. Pierce's Golden Medical Discovery completely cured me at a cost of only four dollars."

For a free, paper-covered copy of Doctor Pierce's Common Sense Medical Adviser send your name and address to cover returns and mailing only. (Do not send postage.) Address Dr. R. C. Pierce, Buffalo, N. Y. A medical library is one of our page victims.

THURSDAY, SEPT. 30 1897.

OURSELVES.

To accommodate our increasing ad-
vertising patronage, we find it nec-
essary to change the style of our
paper. We now print both sides
at home and hope the change will
be acceptable to our patrons. As
business increases and circumstan-
ces warrant, we hope to make fur-
ther improvements. To do this it
is necessary that we have the sup-
port of everyone in the district,
merchants and subscribers, and we
trust everyone will take an interest
in the local paper that is doing its
best to help build up the town and
district.

CHARACTERISTICS OF THE CROP.

Hundreds of samples of wheat,
from all parts of the country, were
gathered together at Winnipeg last
week for the use of the standards
board in fixing the wheat grades
for the crop of 1897. An examina-
tion of these would give a fair in-
dex to the crop. One feature of
the crop is good color. The wheat
is generally a bright sample, show-
ing that there has been no damage
from bleaching. It should there-
fore make a good, strong flour.

The berry is not large and a good
many thin samples were in evi-
dence, while some were very thin
and shrunken. The crop is very
free from smut, and no trace of
frost was observed. Another fea-
ture quickly noticeable is the great
number of dirty samples—that is,
wheat containing an unreasonable
proportion of seeds of weeds.
From the look of many of the
samples the farmers are paying for
the threshing of a vast quantity of
weed seeds this year. Besides
paying for the threshing of weeds,
they will have the labor of harvest-
ing and marketing the weeds, thus
adding to the labor and cost of har-
vesting the crop all the way through,
from the cutting to the marketing,
while there will be additional cause
for dissatisfaction when the grain
buyers dock the weight for dirt.
Growing is very unprofitable, not
only on account of the labor of
growing a mixture of wheat and
weeds, but also on account of the
fact that the yield of wheat per
acre will be very likely to decrease
in proportion as the weed seeds
increase. The soil cannot produce
a very heavy crop of grain when
it has to supply nourishment and
moisture to a large crop of weeds.
Barring weeds, the crop has many
good features and it will greatly
go into the two grades of No. 1 and
2 hard.—Winnipeg Commercial.

THE COMBINE AND GRAIN PRICES.

The argument is urged that grain
prices are as high in Manitoba as
the prices as fixed by Chicago will
warrant.

This is no argument at all.

The wheat quoted on the Chicago
exchange is not hard wheat, and is
worth from 10 to 15¢ per bu. less
than Manitoba or Dakota hard
wheat.

The wheat in Ontario this year
is of excellent quality, much better
than that being marketed through
Chicago. On the 20th inst. Ontario
wheat was quoted at 84 to 85¢ in
Toronto. On the same day Mani-
toba No. 1 hard was worth at Fort
William 96¢ and Ontario millers
could not have it delivered under
\$1.02, so that there is a difference
in value between Manitoba hard
wheat and Ontario soft wheat of
from 15 to 20 cents.

Manitoba's No. 1 hard wheat is
as essential to Old Country millers
for mixing as it is to Ontario
millers.

Manitoba flour is worth quite 90
cents per barrel more than the best
flour ground from Ontario wheat.
The Manitoba farmers should get
the benefit of this and not the
grain combines. There is a lot of
robbing in connection with this
grain business and the sooner the
farmer realizes it the better for
himself.—Winnipeg Tribune.

THE Government at Ottawa ap-
point a board of examiners whose
annual duty it is to inspect samples
of wheat sent in from all parts of
the Northwest, and to establish
grain standards for the year. The
word is respectfully requested to
take notice that Western Canada
produces but two grades of wheat,
one the very best grown on earth,
and the other not quite as good,
officially designated as No. 1 and 2
Hard. There may be other coun-
tries in the world having but two
grades, but it is doubtful, and if
there are, the grades, in comparison
with Manitoba wheat, would rank
as far to middling and poor.—
Free Press.

LIEUT.-GOVERNOR MCINTOSH is
quietly resting at Godalming, Sur-
rey, Eng. Who would not be a
governor, especially a Northwest
governor, one who can go all over
the world and leave the machine
at home to run itself?

A Joy That Endures

Cures Made by Paine's
Celery Compound
are Permanent.

Recent Testimony of a Lady
Cured Years Ago.

Some years ago Mrs. D. O'Connor,
of Guelph, Ont., suffered from
the tortures of indigestion, neural-
gia, heart trouble, noise in the
head, sleeplessness, despondency
and weakness. Her case was an
exceptionally serious one, as her
troubles had been dragging her
down for over twenty-five years.
At the time her case quite baffled
the skill of the best doctors.

Getting wearied with medical
treatment that gave no promising
results, she was fortunately directed
to that life-saver, Paine's Celery
Compound, and like thousands be-
fore her, she found a new life.
Mrs. O'Connor was recently asked
the question "What is your present
opinion of Paine's Celery Com-
pound?" She answered as follows:

"In reply to your communication
regarding Paine's Celery Compound,
would say that I cheerfully recom-
mend it to anyone afflicted as I
was. It did for me all that was
required. My advice to everyone I
come in contact with is, 'Always
keep a bottle of Paine's Celery
Compound in the house.' Several
people have used it on my recom-
mendation, and have been benefited.
You can use these lines in any way
you desire."

Origin of Modern Colors.

Turkey red is made from the madder
plant, growing in Hindostan.
The exquisite Persian blue comes
from fava beans, roots and other
refuse animal matter with minute pos-
sum carbonate.
Gambrine is from the redox sap of a
tree in Sam.
India ink is made from burned oyster-
shells.

Mastic comes from the gum of the
mastic tree, which grows in Greece.
Raw Sienna is the natural earthy color
of the neighborhood of Sienna, Italy, and
under it an earth found near Padua.
Raw black comes from the charcoal of
the vine stalk.
The opal families, Indian yellow, and
the golden fish-glass are made from
an ink and the fish, which are dried &
chopped to make the water of color.
Rust is the water of iron & oil. It is
let in a bottle of preservative, and is
from the ore vitriol, and the Chinese
white is zinc.
The various purples, pinks, and
permanents and colors taken are ob-
tained by the chemical process.

To Make a Good White Wash.

For a good whitewash for your bed-
room ceiling put a piece of lime weigh-
ing about five pounds in a granite jar
or bucket; pour on it a gallon of water,
allow it to boil and stir until the
steaming is over; take from this two
quarts of the liquid, put it in a
wooden or granite bucket, and add suf-
ficient water to make it rather thin.
Add a small amount of pure soda, suf-
ficient to give it the proper color, add
a teaspoonful of salt and half a teaspoon-
ful of linseed oil, stir well. This is all
you need, a perfectly white wash, if
you wish it colored add one of the col-
ors, which you may purchase at any
dealer's, stating that it is to be used
with lime.—Ladies' Home Journal.

Parade of Tomatoes.

To put tomatoes, cut the tomatoes
into halves, place them in a baking pan,
skin side down, sprinkle lightly with
salt and pepper, and put in the middle
of each a tiny bit of butter. Bake slowly
until soft. Dish and add to the liquid in
the pan one pint of milk. Mix with two
level tablespoonfuls of flour with a lit-
tle cold milk; add it to the pan and stir
constantly until boiled. Add a table-
spoonful of salt, a dash of pepper, and
pour it over the tomatoes. Garnish with
squares of toast and sauce.—Mrs. R. T.
Rorer, in Ladies' Home Journal.

Throat lined with Ulcers

A Young Lady Cured of Long
Standing Catarrh and Cat-
arrhal Sore Throat by Dr.
Chase's Catarrh Cure.

Miss Anna A. Hickey, of Eden, Ont.,
says that she suffered from Catarrh for
ten years, used a number of remedies
advised, but was always disappointed
in the result.

Last fall she suffered intense pain in
her head and her throat was lined with
ulcers. The doctors called it Catarrhal
Sore Throat but did not cure it. She
saw that Dr. Chase's Catarrh Cure was
being highly recommended, so procured a
bottle from C. Thomson, druggist, Tole-
mberg, Ont., and commenced its use.
Soon the ulcers cleared away from her
throat, the pain in her head ceased. She
says that Dr. Chase's Catarrh Cure does
not cause distress or soreness when being
used, and is the most effective catarrh
remedy she ever tried.

Mr. J. D. Phillips, a Justice of the
Peace, declares that he knows Miss Hickey
and her mother, and can vouch for the
truthfulness of her statements.

Dr. Chase's Catarrh Cure sold by all Dealers.
Price 25 cents, complete with syringe.

Established 1877. CAPITAL, \$750,000 Incorporated June 18, 1893.

ABOUT BABIES.

Some Things All Mothers Know the Better
and Easier.

Can you tell how a baby's sex is determined?
Is it by the look of the face?
No, it is determined by the sex of the parents.
Can you tell how a baby's sex is determined?
Is it by the look of the face?
No, it is determined by the sex of the parents.

At an afternoon reception, while we
were talking about the baby, a lady said
that she had a very pretty baby, and
that she was very proud of it. She said
that she had a very pretty baby, and
that she was very proud of it.

ITCHING PILES.

Some time ago I was completely
incapacitated for business by
itching Piles. I bought a box
of Chase's Ointment at Rev.
Drug Store, and on applying
it was relieved at once. I
day after day it is others and
I have been relieved. It
has cured some that had
to undergo operation.

I have used Dr. Chase's Ointment
for Salt Rheum and
Eczema and it has worked
wonderfully for me. I have
definitely in my mind that it is
afflicted with these skin troubles.
